

REMARKS

Claims 1-6 have been amended in the manner suggested by the Examiner.

As requested by the Examiner, a copy of the prior art pencil sharpener by Penshar is enclosed in the form of a picture from the website. Rather than producing a shaped profile as shown in Applicant's Figs. 1 and 2, the Penshar device is rotated to produce a conventional pencil point as should be evident from the picture.

Formal drawings are enclosed. Please substitute for the informal drawings filed with the application. The missing reference numbers referred to in paragraphs [0025] and [0026] have been added to the formal drawings.

It is respectfully requested that the case be passed to issue.

Applicant believes no fees are due with the filing of this Response; however, if it is determined that additional fees are required, please charge our Deposit Account No. 13-0235.

Respectfully submitted,

By

William C. Crutcher, Esq.

Congratulations on finding your way to one of the the greatest tools on earth. Our **Penshar®** Carpenter Pencil Sharpener, is an award winning tool. The reasons are simple. It works, it works well, and it won't cost you an arm and a leg. Heck, it may even save you from cutting off a finger. We know that once you own one of these, you'll wonder how you lived without one, and we're certain you'll never want to be without one again.

The Penshar®

Sharpens flat carpenter pencils to a consistent point.

Eliminates dangerous hacking away with a utility knife.

Makes a perfect addition to any tradesman's tool pouch.

Weighs less and is smaller than a disposable lighter.
